

# SPOOKY HALLOWEEN ACTIVITIES

## Pompon Creatures

### You need

Card  
Compass  
Wool  
Felt  
Googly eyes  
Glue or tape  
Scissors

### How to do it

Use your compass to draw two circles 4 cm in diameter on to the card. Inside these circles draw a smaller circle with a diameter of 1.5 cm. Cut out the 4 cm circle from the card then cut out and get rid of the 1.5 cm circle in the middle. Place the two circles together. Cut a good length of wool, thread one end through the hole in the middle of the circle and tie it and thread the needle on other end. Wind the wool around the circle until the hole in the middle disappears. Carefully cut the wool at the outer edge of the circle between the two pieces of card. Gently pull the two pieces of card apart before removing the card tie around the wool with another piece of the same coloured wool and secure. Fluff your pompon up then use the felt, glue and googly eyes to decorate your creatures.

## Witch's Hat

### You need

Wallpaper cut-offs or card, Sponges or potatoes, Paint, Masking tape, Scissors, wool.

### How to do it

Use the sponge or potatoes to make shapes for printing on the hats. Use the wallpaper/card to make a cone shape that fits snugly on your little witch/wizards head. Secure it with the masking tape and trim the edge to round it off. Undo the masking tape and get the children to paint and print their hats as they like. Add the wool to the back and smaller lengths to the front of the hat for a fringe. Once the hats are dry secure with masking tape and enjoy!!
