

## Covid-19 Survey

Hi all,

NICMA are conducting a short survey that will be issued to all Registered Childminders in the five Trust areas. This is to better understand the issues that Registered Childminders may have faced during the pandemic and any arising issues that may come up as we move to a 'new normality'.

These surveys are invaluable as it allows us to glean the information we need in order to continue to help and support the Registered Childminders of Northern Ireland. The information from these surveys have been key during the pandemic as it has helped to secure funding, as the information given has come directly from you!

All survey information will be anonymous; however, the collated data will be shared with the Department of Health and the Department of Education. No names, address, contact information etc will be shared unless stated otherwise.

Below you will find a link to a survey regarding Covid-19, funding, and available childcare spaces.

We would really appreciate it if you could spare a few minutes to complete the survey. (It should take no longer than 5 minutes).

Please select the survey below your Trust area.

**Many Thanks,  
The NICMA Team**
